Sai Prasad Patnaik: I understand that you want to know how to turn OFF the Bluetooth on the computer.. Kosh Vorlon: I'm helping a friend remotely and don't have the S/N Can you help me help her? Sai Prasad Patnaik: Sure, I appreciate your efforts.. I suggest you chat with them yourself Here's the link: I hope this helps Here is a transcript of my chat with them: Chat Transcript - 06:28 AM Hi, my name is Sai Prasad Patnaik.. Drivers Games Best Video Software for the Mac How Acer 5738g Drivers It should contain several barcodes, one of which will be labeled SN and another SNID.. A Bluetooth device connected with your Acer notebook is capable of sending data between your business computer and the wireless device.. The SNID is an 11-digit numeric code located under the serial number If you can locate the SNID, please use that number to identify your machine.

Sai Prasad Patnaik: I am sorry to inform you that as we do not have the correct serial number, I can only provide you basic information.. Sai Prasad Patnaik: Could you please provide me the serial number or SNID of your computer? Sai Prasad Patnaik: Please check the serial number sticker is located on the bottom of the notebook.. I'm not sure about the buttons - they are specific to your computer and you need to provide the serial number to get more details about how they work or if you even have bluetooth installed.. The Bluetooth interface allows you or your employees to connect a headset for sales calls, printers, keyboards, mice or additional audio speakers without the restrictions of a wired connection.. Just underneath the power button there's 3 smaller buttons The 1st is wireless and the second has a bluetooth sign on it but when i press it nothing happens.. Sai Prasad Patnaik: Could you please confirm my understanding of the issue? Acer Aspire Bluetooth Driver Download Kosh Vorlon: This is what I got asking for help: ive lost my manual to my new acer aspire 5738z laptop and dont know how to turn bluetooth on..
